PRODUCT

SH100 (M8141)

FEATURES

This crystallizer for marble gives a mirror gloss on floors in marble and natural stones. SH 100 has a “glass” effect, therefore it removes the stone’s unstable molecules and restores them with the compounds of its special formula, its wax produces a durable final polish. Our SH100 is highly appreciated for its excellent reaction time and absence of opacity and yellowing, even a long time after application.

TECHNICAL DATA

Appearance	Liquid	
Specific weight	1000 ± 20 g/l	(MI 001)
Odor	Aromatic smell	
Color	Dirty white – light brown	

STORAGE

Keep the container well closed and stored in a cool (temperature below 25°C) and ventilated environment for a maximum period of 12 months from the date of production marked on the tin. Avoid direct sun exposure and to heat sources.

SAFETY RULES

Keep the place ventilated during application and drying processes. The use of personal protective equipment is recommended during application. Read carefully the safety data sheet before application.

APPLICATION

SH100 is ready for use as supplied.

- Clean carefully the surface to be treated and distribute the crystallizer **SHa100** evenly over it, if possible use a sprayer.
- Then use a monobrush (40 kgs. Approx.), preferably a 1,7 hp machine / 170 rpm, with fine steel wool disk.
- It is recommended to treat small areas at a time, 4 m² maximum.
- Spreading rate: from 20 to 40 m² depending on the type of material.

Application

Monobrush at 170 rpm

Spreading rate

20 – 40 m²/L depending on material

(MI 014)

ADDITIONAL INFORMATION

Note: Since the *SH100* is formulated by mixing synthetic and natural waxes it could change color and odor, but this would not compromise application and ending result.
