PRODUCT

WATER-BASED ABRASIVE POLISH (C7128)

CHARACTERISTICS

LEVANTE ABRASIVE POLISH is prepared with selected waxes and metal oxides and it is ideal for removing scratches and stains from all types of paint.

This particular paste is produced with a water base which makes it absolutely odorless and easy to use.

The ABRASIVE POLISH LEVANTE thanks to its characteristics can also be used on plastic parts provided they are not very porous.

TECHNICAL DATA

Specific gravity	1060 ± 20 g/l	(MI 001)
Solid weight	50%	(MI 006)
Color	Ice white	

STORAGE

Keep the container well closed and stored in a cool (temperature below 25°C) and ventilated environment for a maximum period of 12 months from the date of production marked on the tin. Avoid direct sun exposure.

SAFETY

During application and drying time ventilate the room. We recommend the use of appropriate PPE during application. Before starting work, read the safety information.

APPLICATION

- Make sure the surfaces to be treated are thoroughly clean;
- Apply LEVANTE ABRASIVE POLISH directly on the surface to be treated;
- Rub with a sponge swab using a variable speed angle grinder at medium speed.
- Finish the pretreated surface using a felt wheel
