PRODUCT

LEVANTE WATER POLISH (C7127, C7128)

CHARACTERISTICS

LEVANTE POLISH is a top choice stabilized wax emulsion. In both versions, polishing and abrasive, it is a pink, water-based cream wax. The formulas are studied to grant the best performance for every user. LEVANTE POLISH is suitable for giving an exceptional shine to any type of varnish; the results are equally extraordinary in case of application on old or new paints. Easy to apply, it protects all types of hulls from weathering and salt deposits, ensuring a good water repellent effect. It's also available in the abrasive type, useful for removing scratches and scuff marks. Do not use on surfaces which are directly exposed to the sun or on very porous plastics.

TECHNICAL DATA

Specific weight	1000 ± 20 g/l	(MI 001)
Color	Pink	

STORAGE

Keep the packages well closed and stored in a cool (temperature below 25°C) and ventilated place for a maximum period of 12 months from the date of production printed on the tin. Take care to avoid direct sun exposure.

SAFETY

During application and drying time, ventilate the room. We recommend the use the appropriate PPE during application. Before starting work, take care to carefully read the relevant safety data sheet.

APPLICATION

- Make sure that the surfaces to be treated are perfectly clean.
- Apply LEVANTE POLISH directly onto the surface to be treated; leave it for one or two minutes.
- Polish with a sponge pad by using an angle grinder machine (with has got variable speeds) at medium speed.
- Refinish the surface previously treated by using a wool disc.
